

BRONDWYN DOUGLAS

About:

Sustainability, Impact and Environmental, Social and Governance (ESG) Specialist with 22 years' industry experience based in Cape Town, South Africa.

Principal focus over the last 10 years has been on ESG due diligence, ESG management systems development, sustainability strategy development, as well as reporting and associated performance management in line with internationally accepted standards.

Majority of experience has involved supporting organisations, and their respective portfolio companies, implement systems and processes to meet investor requirements and adhere to the International Finance Corporation (IFC) Performance Standards. Governance aspects relating to ESG have included the development of appropriate governance frameworks, sustainability strategies for material risks, associated metrics and targets, reporting systems to collect and analyse data across an organisations footprint and assurance activities such as compliance auditing and data verification.

Board member with experience serving as the responsible person for environmental and social aspects. Sits on social and ethics board committees.

Have worked in various geographies including America, Angola, Australia, Botswana, Kenya, Malawi, Mozambique, Nigeria, South Africa, Swaziland and the United Kingdom.
